Millwood School is a college preparatory, independent co-ed day school serving students from junior kindergarten to twelfth grade. Located in Midlothian, VA, we provide a strong core curriculum that is enhanced by many special subjects and integrated with a variety of extracurricular activities.

Millwood was founded by Dr. Louise Bagwell-Robinson. Recognizing the need for a comprehensive independent school in the Midlothian area, she dreamed of a nurturing environment with academic rigor and strong character education. Thanks to the support of trustees, faculty, parents, and members of the community, this dream became an inspiring reality in 1989.

Millwood School embraces and celebrates the rich diversity of our students, employees, and families from all backgrounds. Millwood School strives to create a supportive and inclusive learning environment where each person is valued. We work to intentionally develop cross-cultural competency within all constituents.

THE MILLWOOD EXPERIENCE

Student Life

Outside the academic schedule, Millwood School offers numerous opportunities for students to utilize their talents and discover new passions. These activities are designed to build character, unity, and enthusiasm within our school. In addition to our music programs, arts, athletics, and clubs, Millwood is home to an array of exciting traditions — annual events that enrich the experience and bring our student body together.

Finding Balance

Studies indicate that students who participate in extracurricular activities alongside academics are more likely to excel in both. Of course, to ensure this success, a school must help students maintain a healthy balance and strong focus on their studies. At Millwood, we understand the mental and physical energy that some sports and activities require. The last thing we want to see is compromised performance in the classroom or stress related to an extracurricular. Millwood’s teachers and coaches provide individual attention to each student, mentoring them as they pursue excellence in every endeavor. Finding and maintaining this balance is important as students prepare for college, work, and life.

Developing Leaders

Focusing on the real-world skills that extracurricular programs can provide, Millwood School uses every activity to develop students in a positive way. As they discover the importance of teamwork, time management, and personal responsibility, they become proactive learners and leaders — whether that is in the classroom, at the gym, or on stage. Would you like to learn more about the exciting student life at Millwood? We would love to share more about how our academic program and other activities work together for each child’s benefit.
